## The Daily Standard Frtday, March 10, 1871

Probace Pees.

There is a class of advanced thinkers who maintain that no man should have the right to bequeath his property to any one, and that the estate should only be liable for the education and support of children under age, and also for the maintenance of the widow of the deceased. It is alleged by this class of economists that all wealth is but the savings of an Mackar et in 1811s. individual, either from his own earnings, or from the earnings of others whom he has employed, or with whom he has done basiness; and consequently no one, except in the cases mentioned, is entitled to enjoy property accumulated by another. In fact, that the right of bequest should be barred by statute entirely, and that the estate should become the property of the State. This doctrine is maintained on the ground that no one should enjoy property that has not been accumulated by his own industry. But every one should be forced by law to work, carn, and save for himself, and then to work, carn, and save for himself, and then in that case he would be entitled to enjoy during his lifetime the result of his labour; and not be entitled by law to live in ease an luxury on the savings of others. Now we are perfectly willing to admit this to be the correct doctrine; but unfortunately the science of Sociology is so imperfectly understood generally, that it will be a long time before even the most advanced communities will recognize it, and enact laws to make it opera. 35 bxs. Kingsford Starch tive. It is far too Utopian for this or any other civilized country; but the time will yet come when our descendants will look back to the present law of bequests as we look back to the law imposing slavery on a fellow creature. When the public mind is prepared to receive this new doctrine, it will be time to enforce it by compulsory enactments, and not before. In England, in ransacking the country to find property to tax, finance ministers have stumbled on both testate and intestate estates, and imposed a duty Hence, the doctrine has been partially an indirectly recognized; but the right of bequest remains unimpaired. In the recent order of our Supreme Court, establishing the fees to be taken in the Probate Court, Three per Cent. is charged as a fee against all estates on which Probase and Letters of Administration have been granted. If an estate is worth \$1,000, it will pay \$30; and it worth \$30,000, it will pay \$900 as a fee. Formerly, no matter what the estate was worth, it did not pay more than an \$18 fee. The Judges of the Supreme Court and the Governor have, however, changed that state of things, and sut ject all estates for Probate or Letters of Administration to a Three per Cent. fee. The opinion general, so far as we can guther it, is adverse to any such imposition. It is maintained that \$200 should no be charged to one estate, for work that is performed for another estate for \$30, or even less. There is so much justice in this view of the question, that we are compelled to admit its force; and ask for a revision of Probate less under this head. But that is not all. It is held that the amount now levied is virtually a tax, and not a fee; and being a tax virtually, it ought to be imposed by the Legisla-ture, and not by the Supreme Court Judges To this view of the question we also agree, and urge on our Legislators who are desired of distinguishing themselves by reforms, to bring the matter before the Legislative Coun cil for its consideration. If such a tax, in the name of a fee, be d emed right and proper let a revenue law be enacted for that parpose, and abolish that part of the Order of Court.

## Dominion Mail Summary.

We have received exchanges of Canadian we have received exchanges of Canadian papers to the 24 h February. A convention of the Last Eigin Reformers was to have been held at Aylmer on Wednesday, the 8th of March, to select candidates for the approaching election. Quebec city is determined to have the next provincial exhibition its ed to have the next provincial exhibition its agricultural society has supplemented the City Fathers' vete of \$4,000 by \$1,000. The feasibility of pavigating the lower St. Lawrence in winter is under discussion Quebec, being advocated by Mr. Sewell, a shipbuilder, who urges the case of stron iron propellers for the purpose. The idea is

favored by the pilots.

The proposition to give a county bonns a hundred and hity thousand dollars to the Kingston and Pembroke Railway, has been favorably entertained at public meetings held at Howe Island, Fernroy and Hinchinbrook, The Halifax contested election commissioners are investigating the charges preferred by Mr. Garvie, and though they have discovered some irregularities in voting, have not brought any home to Mr. Him the sitting continue to supply Customers with the same Description member. The Governor General of Canada on the recommendation of the minister of militia, issued his warrant for \$200,000 to meet Fenian raid expenses, that smount being necessary in addition to the Parliament ary grant for militia purposes. Col. Gray is preparing a report respecting the codification of the laws, at which he has been engaged for some time.

The people of St John, N. B. have given a very successful concert in aid of the fund and have prospered exceedingly." He is consequently very desirous of returning to the theatre of his former exploits, where he no doubt expects he would play a leading part, and not be dependent upon half-breeds for supplies, as he is at present.

The proposal of the Grand Trunk Railway

Company to construct a drawbridge over the Lachine Canal, and run through Wellington street, along the wharves was condemned at an influential public meeting held in the Montreal corn exchange. In the Governor's address to the Prince Edward Island Legislature at the opening—after referring to the prosperous condition of the Island and recommending the construction of a railway, adverted to the figheries question—and stated that ed to the fisheries question,—and stated that a reply had been received from the Imperial Government to some questions relating there-to, and which had led to the removal of all

restrictions upon American fishing vessels.

A large deputation of French members of Parliament, headed by the Hon. Mr. Cauchon, waited upon the Minister of Public Works, to urge the claims of the North Shore Railway stance from the Dominion, as that pro ject would be valuable in a military point of view, and would form a connecting link be-tween the Canadian Pacific and the Inter-

that Seventeen Meinbers of the Company have subscribed their names to a document applying to the Court for a full right and title to the whole of our mining property, together with Rolling Stock, Improvementa &c., amounting altogether to over \$100,000 by paying off the present mortgage on the mine, which is about \$0,000 which they propose to effect by each paying \$120 cash, the balance to be raised by Mortgage on the mine and thus obtain by private sale for a mere trifle the whole of our property.

thus obtain by private sale for a mere trifle the whole of our property.

We shall then be called upon to pay our present indebtedness with cost of Liquidation after having been privately stripped of our assets.

It appears to me to be a fraudulent attempt on their part to deprive the Shareholders of the property. If the Mine has to be sold, by all means, let it be by Public Auction after having given due notice. The Company then would have a chance to obtain a price such as at least would be likely to pay off its present indebtedness. No doubt exists in the minds of the Seventeen Shareholders referred to, as to the value of the mine, their object in the present hurrying and intriguing manner of purchase being to hold the mine for a future and more favorable opportunity of sale.

Your correspondent not being able to see either the legality or equity of the case feels it his duty to call the egality or equity of the case feels it his duty to call the ttention of the Shareholders in general to counteract

It was considered absolutely necessary, by those who should have, to amend the present law. He had examined the Bill and found nothing in it, but was absolutely just and necessary. He moved the first reading of the Bill—one object of which was to extend over the whole of the Columy the present law relating to Vanouver Island; another object was to compel telegraph companies to make charges in accordance with a specified tariff, and to provide, in cases of dispute, that they be set-

Mr. Beaster moved :- That His Excellenc the Governor send down a Bill to allow all Read Steamers, manufactured in the Colony, to rue on all roads in British Columbia, without giving Bonds, or paying Messrs. Beedy and Barnard any sum for strengthening bridges, &c.

He moved the resolution, feeling the necessity of encouraging home industry—home manufactures. In connection with the construction of a road steamer in this city, Mr. issuter stated, that it was owing to coal and iron, England owed her greatness—it was comething for the Colony to look forward to, that it become the England of the Pacific, and at no very distant day. His motion was latened that no impediment should be placed in the way of the introduction of an engine, which cannot be introduction of an engine, which caused a large outlay in order to get a Patent for this engine, in England and the United States. The Speaker stated the motion was out of Clauses 40, 41 and 42 turning Officer to hire root

the Bill,—Steamers are already permitted to run on the roads—it was not contrary to law to run them.

Mr. Bunates wanted the opinion of the House on the Bill—with all due deterese to the Spunker's opinion. Men who can build steamers, calculated to beat off foreign machines, ought to be protected and encouraged. It was the duty of the House to advise His Excellency, who was unable to see himself, the merits of this machine. He boyed the House would support Island industry, and Mainland industry.
